

K-640 SERIES

3RD GENERATION CABINET

Handy/Simple/Smart/High CP value

48.51 Unit: mm

INTRODUCTION

K-640 Series has the frame of honeycomb. The cabinet is made precisely through CNC machines, and is capable to keep firm in structure when under stress, and dissipate heat quickly.

Inside the structure, all modules are mounted directly, cordlessly. It also allows redundancy system and PSU unit.

ASSEMBLY VIEW

K-640 Series cabinets are easy and simple to put up in various installation environments, saving time and costs.

CUSTOMIZED DESIGN

K-640 Series is also tailor-made for specific demands in sizes. which, currently supports only seperated connection of power and signal ports.

INSTALLATION GUIDE

Wall surface mount

All-in-One frame mount

Bevel angle install

H-Shaped frame mount

Suspended mount

SPECIFICATIONS

Item	K1.25	K1.53	K1.86	K2.5
Pixel pitch	1.25mm	1.53mm	1.86mm	2.5mm
Pixel density	640000	425000	288906	160000
Module size	320x160mm			
LED package	SMD1010	SMD1212	SMD1515	SMD2020
Module resolution(pixels)	256x128	208x104	172x86	128x64
Module arrangement per cabinet	2x3			
Cabinet dimension	640x480x48.5mm			
Cabinet weight (including module)	7.5kg			
Cabinet resolution (pixels)	512x384	416x312	344x258	256x192
Maintenance	Full front service			
System backup	Support			
White balance brightness	500-600cd/m ²			
Pixel-level calibration	Support			
Color temperature	6500K (adjustable)			
Refresh rate	3840Hz			
Viewing angle	120-140°(V/H)			
Brightness uniformity	≥98.5%			
Grayscale level	14-16bits			
Contrast ratio	5000:1			
Scanning mode	1/64	1/52	1/43	1/32
Working voltage (input)	110-240V, 50/60Hz			
Max./Avg. power consumption	500W/m ² /165-260W/m ²			
Storage temperature&humidity (RH)	-10°C-60°C&35-75%			
Working temperature&humidity (RH)	-10°C-60°C&35-75%			
IP ratings	IP5X			
Screen temperature rise	≤5°C			
Installation	On-wall/recessed/pedestal/suspended/stacked install			
Signal output	HDMI/DVI/DP			
Certification	RoHS/FCC/CE			

T-600 SERIES

3RD GENERATION CABINET

T-600 SERIES AS THE MOST POPULOR CHOICE

Unit: mm

INTRODUCTION

HDR

Redundancy system

16:9; pixel-to-pixel display

ASSEMBLY VIEW

T-600 Series cabinets are designed with 4 location pins atop and 2 more spring ball plungers on side, which, as a result, make installation pleasantly easy and convenient.

HIG DYNAMIC RANGE (HDR)

In comparison with SDR, HDR shows wider color range between black and white, which means richer colors and higher contrast ratios.

Wide gamut color

Certification	RoHS/FCC/CE			

N360 SERIES

2ND GENERATION CABINET

Ultra thin/Super lightweight/Streamlined

INTRODUCTION

Lightweight

Slim

Precision

16:9

ASSEMBLY VIEW

N360 Series cabinets are thin and lightweight, suitable for specific demand like in precision, weight, thickness, specially for recessed mount on wall surface.

TECHY CHOICE

N360 Series can be applied technically, like in 3D effect application, with aspect ratio of 16:9.

Instalation guide

Specifications

Item	N1.25	N1.53	N1.86

S480 SERIES DISPLAY SCREEN

Lightweight/Handy/Smart/XR

INTRODUCTION

Designed as 1:1 aspect ratio, S-Series is really a flexible one to make indoor led screen built up with ease, and in various ways.

INSTALLATION

This series provides a complete installation solution with square repair plates and hex-head bolts, which enables users to install the cabinets from either behind the back or the front.

SPECIAL DEMAND

This S-480 Series is a response to special demands on LED display market, such as square-shaped led screens, irregular forms of led screens, etc.

INSTALLATION GUIDE

Right-Angle corner stack

H-Shaped frame mount

Multi-sided stack

U-MAX 500 SERIES 6TH GENERATION CABINET

U-Max 500 comes out with brand-new appearance, functionality and tangibility. You must not miss out this opportunity to experience it.

INTRODUCTION

U-Max 500 Series passes throughout its design the idea of super reliability, firm structure, stable performance. For instance, based on human factors and ergonomics, the handles on the sides are structurally improved; center of balance of the cabinet is also taken into accounted, both of which are targeted to consume less lifting power.

ASSEMBLY VIEW

U-MAX 500 cabinets have a curvature wheel engraved -7.5° to $+7.5^\circ$ that pivots so as to let neighbouring cabinets to form small angles and make curved formation. So it will meet specific staging designs of certain shapes using led cabinets on the spot.

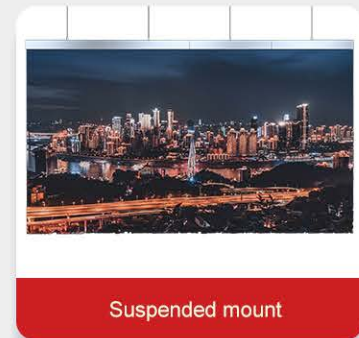

COMFORTABLE RELIABLE

U-MAX 500 Series has comfortable weight and handles so that they can make stage structure building more quick, safe and reliable. And therefore it saves time and cost.

Signal output	HDMI/DVI/DP			
Certification	RoHS/FCC/CE			

MICRO-COB SERIES

Micro-COB Series covers pixels of 0.7mm, 0.9mm, 1.2mm, 1.5mm, to provide 4k/8K video quality.

INTRODUCTION

- Lightweight
- Tangibility
- Smoothness
- Mixed ways of installation with multiple magnetic openings on backside
- Redundancy system

ASSEMBLY VIEW

Micro-COB Series is consisted of modular, independent parts, and LED modules and PSU are connected cordlessly through the HUB board, therefore ensuring screen flatness to a great extent.

FLIP CHIP Micro-COB

- Long lifespan
- High IP rating
- Modular design
- Screen surface flatness
- Performance optimization
